About CARE Australia

CARE is an international humanitarian aid organisation fighting global poverty, with a special focus on working with women and girls to bring lasting change to their communities. As a non-religious and non-political organisation, CARE works with communities to help overcome poverty by supporting development projects and providing emergency relief. We know that supporting women and girls is one of the most effective ways to create sustainable outcomes in poor communities. We depend on support from the Australian public to carry out our work.

CARE Australia is a member of the **CARE International confederation**. We strive for a world of hope, tolerance and social justice, where poverty has been overcome and people live in dignity and security.

For over 27 years, CARE Australia has earned an international reputation for our ability to respond quickly to emergency situations in countries as diverse as Haiti, Pakistan and East Africa. We are also renowned for our innovative, sustainable and effective long-term development projects. All our projects are designed to equip the people we support with skills and resources so they can take charge of their lives and work towards a better future.

CARE Australia is directly responsible for program design, implementation, monitoring and evaluation, as well as management and contractual control of all projects. As a consequence, we have a high degree of accountability and transparency. CARE Australia is committed to protecting the rights of children in all areas we work around the world.

Background

CARE International (CI) has an overall focus on Gender in Emergencies and high quality emergency programming. For several years it has developed specialised capacity in four sectors of humanitarian response: Emergency Shelter, Emergency Food Security and Emergency Water, Sanitation and Hygiene (WASH), and Sexual and Reproductive Health. The specialised emergency sector capacity is being developed by particular CARE International members, which host the respective capacity for the benefit of all of CI. Leadership of each core sector is entrusted to a Team Leader who provides the

technical and strategic underpinnings for the development of the sector and represents CARE at the inter-agency level.

CARE Australia has been actively delivering against this responsibility since 2008 with positive results in terms of improved response and enlarged support for CARE's 70 Country Offices. CARE also plays a prominent role within the global WASH cluster.

About the Role

The WASH Team Leader manages a team and provides overall leadership for CARE International in the Emergency Water, Sanitation and Hygiene (WASH) sector, within the framework of CARE International's overall humanitarian policies and integrated emergency strategies.

The role is responsible for developing sectoral policies, strategies, best practices and guidelines for CARE's global work in the sector by:

- Supporting and overseeing the development of CARE's human resources capacity in the sector, through the Emergency WASH Team, a roster of deployable WASH experts, and at Country Office level;
- Representing CARE International at the global level in the emergency WASH community;
- Developing strategic partnerships and identifying funding opportunities to support CARE's work in the sector;
- Ensuring that CARE offices receive effective technical assistance in the sector during emergency preparedness and response; and
- Guiding, learning and evaluation of CARE's work in the sector and contributing, as appropriate, to CARE International's overall humanitarian policies and strategies.

The role is hosted by CARE Australia on behalf of CARE International and reports to that member and is also part of a wider Emergency Program Quality Team which brings together the work of the four specialist sectors and that of experts in gender in emergency and other areas under the overall leadership of the CARE Emergency Group (CEG). It coordinates closely with other CI members and country offices. This role also has significant external liaison and representation responsibilities globally, particularly with the Global WASH Cluster and participates in appropriate external and internal events.

The position entails travel often at short notice to emergency locations. There will be a requirement to attend CARE Australia Headquarters in Canberra, Australia and other CARE Member Headquarters from time to time.

Key Responsibilities

1. Lead CARE International's engagement in and development of the emergency WASH sector in order to expand CARE's capacity in this focus sector in line with CARE's Emergency WASH Sub-Sector Strategy.

2. Develop CARE's emergency sectoral best practices in order to enhance CARE technical capacity in the emergency WASH sector, and to substantiate CARE's position as a leading agency for gender issues within WASH.
3. Ensure that country offices and CI members receive technical assistance in the emergency WASH sector in order that all CARE interventions in the sector meet established quality criteria, making short technical deployments where required.
4. Represent CARE International in the emergency WASH sector in order that CARE contributes to, learns from, and is recognised as a strong NGO, with a focus on gender, within the global emergency sector community.
5. Establish strategic emergency sector partnerships in order to best leverage CARE's work in the emergency WASH sector.
6. Manage CARE International WASH staff either directly or by working with the CARE member to ensure strategic oversight of their roles in line with CARE's overall WASH strategy and position.
7. Provide technical support to the development of emergency sector human resources capacity in order that CARE has qualified emergency sector personnel available to support its emergency work.
8. Provide technical support to facilitate and maximise global level fundraising opportunities for CARE's work in the emergency WASH sector.
9. Support the CEG Quality and Accountability adviser in effective emergency WASH sector learning and evaluation in order that CARE can strengthen the quality and accountability of its work in the sector.
10. Support and contribute to CARE's overall humanitarian policy, advocacy, strategy and media relations efforts in order to strengthen CARE's humanitarian work.

Selection Criteria

- At least 7 years cumulative overseas experience in the emergency WASH sector, including in preparedness, response and Disaster Risk Reduction. Academic qualifications in a relevant field will be highly regarded as well as language skills: English fluency and preferably a second relevant language (e.g. French, Spanish or Arabic).
- Strong initiative and drive, a record of innovation and achievement and demonstrated ability to design and manage appropriate emergency WASH programs.
- Excellent representation and negotiation skills with stakeholders including donors, the Global WASH Cluster and the UN as well as experience developing partnerships and fundraising.
- Demonstrated high level of communication and interpersonal skills including the ability to create and foster collaborative and productive relationships with internal clients and external organisations.
- Demonstrated personal attributes of a high order including proven leadership skills, ability to manage a small and geographically dispersed team and to monitor and evaluate team performance.
- Demonstrated ability to respond effectively to challenges, and to work effectively in a small, diverse and busy team environment.
- Demonstrated understanding of gender equality and women's empowerment and a commitment to CARE's approach and values including ethnic diversity and cultural sensitivity.
