

EL NIÑO IS COMING, WE ARE READY FOR IT?

WHAT IS EL NIÑO?

El Niño is a period of time when the rain comes late and stops early.

WHAT IS THE IMPACT OF EL NIÑO?

Drought, Animal starvation.

Crop failure

Water shortage

WHAT WE CAN DO?

1. Help water absorption through land:

Don't burn the land, the dry grass protects the land.

Save some seeds, in case you need to replant.

Grow various types of plants in the garden.

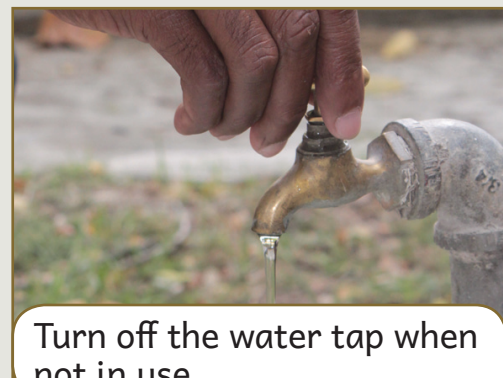

2. Protect our water:

Protect water source.

Repair and protect your water systems.

Turn off the water tap when not in use.

If you want to learn more about El Niño, contact the extension officers in your village.
