### About CARE Australia

---

CARE is an international humanitarian aid organisation fighting global poverty, with a special focus on working with women and girls to bring lasting change to their communities. As a non-religious and non-political organisation, CARE works with communities to help overcome poverty by supporting development projects and providing emergency relief. We know that supporting women and girls is one of the most effective ways to create sustainable outcomes in poor communities. We depend on support from the Australian public to carry out our work.

CARE Australia is a member of the **CARE International confederation**. We strive for a world of hope, tolerance and social justice, where poverty has been overcome and people live in dignity and security.

For almost 30 years, CARE Australia has earned an international reputation for our ability to respond quickly to emergency situations in countries where CARE International operates, including Syria, Pakistan, South Sudan, Myanmar and Vanuatu. We are also renowned for our innovative, sustainable and effective long-term development projects. All our projects are designed to equip the people we support with skills and resources so they can take charge of their lives and work towards a better future.

CARE Australia is directly responsible for program design, implementation, monitoring and evaluation, as well as management and contractual control of all projects. As a consequence, we have a high degree of accountability and transparency. CARE Australia is committed to protecting the rights of children in all areas we work around the world.
